

# Ready to Rideshare?

It's as easy as...

1

## Get your group together.

A vanpool requires six or more riders with similar schedules. Our free Employee Grouping Software allows us to match you with co-workers who live near you and have similar commute routes and work schedules.

2

## Select a vehicle.

Choose from a variety of Minivans, Crossovers and SUVs, all of which can be specially equipped for your commuting pleasure.

3

## Start saving money and reducing stress.

Once you've determined pick-up and drop-off points and times, you can sit back and relax with the freedom of time to read or rest, or to enjoy the company of your fellow commuters.
